King IV Implementation

Training Workshop

Prerequisites: an understanding of the principles of corporate governance. 2 day workshop.

King IV Implementation

A thorough and practical program focusing on ethical leadership, attitude, mindset and behaviour. King IV is principled and outcomes based taking the challenges and realities of today's business world into account. In this workshop we focus on the following:

- A Practical Approach to the implementation and maintenance of Corporate Governance
- In-depth coverage of the King IV Corporate Governance Code, board structures, roles and committees, reporting and disclosure, corporate social responsibility and risk governance, IT governance and compliance
- Conducting a Gap Analysis of King IV Requirements
- Leadership, Ethics and Corporate Citizenship
- Performance and Reporting
- Governing Structure and Delegation
- Roles and Responsibilities of Audit and Risk Committee
- Stakeholder Relationships
- Practical examples of Corporate Governance Best Practice
- Class discussions and group activities

COURSE OVERVIEW

All the insight required for establishing a Corporate Governance Program, Policies, Procedures and Reporting in line with King IV.

WHO SHOULD ATTEND

- Directors
- Senior Management

BENEFITS

A complete understanding of Director's Duties, Classifications and Accountability with a practical, customized framework for implementing Corporate Governance.
