4 day workshop.

# OHSACT

For those responsible for Health and Safety in the workplace - gain in-depth knowledge and understanding of the OHSACT's legislation structure and regulations as the basis of your Health and Safety System. This focusses on:

- All relevant clauses of the OHSACT identified for your industry and explained in detail
- Specific clauses relevant to an operational activity
- Responsibilities ascribed to the Chief Executive Officer (16.1 Appointee)
- Responsibilities ascribed to the 16.1 Appointee, all Managers, Supervisors and Employees
- The Consequences of Non-Compliance
- Requirements of the OHSACT (Applicable Regulations)
- Drafting foundation Risk Assessments
- Mitigation of risk through training, supervision and Standard Operating Procedures
- Drafting and implementing a compliant Health and Safety Management System
- Generic Templates - Procedures, Checklists and Reports
- Industry relevant Case Studies
- Practical Exercises

## COURSE OVERVIEW
