Social Compliance & Ethical Trading

Supplier Management - Training Workshop

Prerequisites: a basic understanding of your target social & ethical compliance standard. 1 day workshop.

Social Compliance & Ethical Trading

Management of suppliers is the foundation of social and ethical compliance throughout your supply chain by sourcing from responsible suppliers, committed to the standard requirements and who have passed a social audit. Learn the art of collaborating with suppliers and building long-term relationships while managing their social commitments. Safeguard your business in the process from inadvertently being involved in unethical practices in the supply chain.

This practical training workshop includes:

- The facilitation of Risk Assessments
- Supplier Self Assessments / Questionnaires and Scoring
- Supplier Audits
- Supplier Contract and Agreement Repository with Review Alerts
- Supplier Approval Process
- Management of Approved Supplier List
- Updating of Questionnaires, Certificates & Audits
- Management of Exceptions to Supplier Approval Process
- Generic Templates
- Reporting and Trend Analysis
- Collaboration on Addressing Identified Risks and Audit Findings
- The Way Forward – a Customisable Practical Plan
